### The Facts of the Case.

Comment has been caused because  
the Mail has been finding fault with  
the council for not looking up the  
fountain donated to the city by the  
late James S. McKean, and having it  
placed in position. It seems there  
has been a misunderstanding in some  
way and a thorough investigation re-  
veals the fact that although the Penn-  
sylvania Railroad company on whose  
property it was to have been placed,  
prepared plans and specifications for  
new freight and passenger stations  
which they proposed to build if council  
would grant them the privilege to ex-  
tend their entrance to the freight  
building over the borough's property  
twelve feet in width for about the  
length of a square, offering in return  
open up their water line near Fifth  
street for the fountain to be placed,  
the proposition was never accepted.  
Although it was understood that  
agreements were reached between the  
railroad company and council, such  
was not the case. It did look favor-  
able for a time, however, but certain  
clauses in the agreements which the  
company's officials had drawn up were  
objectionable to the council and the  
former refusing to make changes, a  
stop was put to further business be-  
tween the two bodies. These clauses  
over which the contention arose were  
concerning the opening of the water  
main, the Pennsylvania Railroad com-  
pany refusing to grant the borough  
the privilege of using the water in-  
definitely, but made it optional with  
themselves as to when it should be  
turned off after notice of ninety days,  
and the number of feet back from  
the street which switches should be  
placed. Council demanded that  
plenty of room be given for teams to  
back into a car, without interfering  
in the least with traffic on McKean  
avenue, and the company refused to  
accord to the exacting demands. Here  
was where the matter stopped and not  
a word has been said since by either the  
council or company. The financial  
disposition set in and the railroad dis-  
continued making improvements any-  
where, the plans for the new station  
it is understood, being kept  
with a view of building as  
soon as business brightens up, so the  
matter will likely come up again.

But the question arises, what

about the fountain? Where is it? The facts of the case are that there is very little fountain at the present time, and that little part is rusted and scarcely fit for use. Charleroi's fountain, of which she was justly proud has been allowed to lay in an outhouse, be taken apart and pieces stolen, simply because the various men who were at the head of city government here during the past several years, failed to take action and have it placed where it would do good, or at least have it stored where it would not be stolen or rusted away.

### Question Constitutionality.

Candidates in various parts of Washington state, unsuccessful at the election Sept. 8 from nomination on the state and district ticket to be voted for at the national election in November, have completed preliminary plans for a concerted attack on the constitutionality of the direct primary election adopted by legislature in 1907. Judge W. W. Zent of Kittitas, has already filed his petition, assailing the non-partisan judiciary feature, alleging also that the legisla-  
ture had no right to require candidates to pay a filing fee or force them to declare their party affiliation. The state canvassing board has been ordered to show cause why the writ should not issue.

Other petitions to be filed will require the supreme court to pass on such questions as first and second choice for state and congressional offices where four or more candidates appear on the ticket, also on the manner of the election of a judiciary on the non-partisan ticket.

Attorneys who have investigated the second choice provision declare that this section of the act undoubtedly unconstitutional. The provision is a new one and as there is no legal literature or precedent upon the subject, so the fight through the courts will be in the nature of pioneer litigation.

### Electric Sparks.

The Turks and Bulgarians are determined to fight it out. Good! We will stand for strangle holds, and things like that, but it must be understood that contestants shall be in-

stantly disqualified in case either is caught passing "bum" checks for war supplies.

Silk dresses have been barred at the Hazelwood High school. Charleroi girls are so sensible that no local edict of that sort is likely to be necessary.

Dorothy Dix wants to know if women are going backward. If Dorothy, herself is a fair type there is no doubt about it.

Where does William Jennings Bryan get his fellow feeling for labor? He hasn't done any since we first heard of him.

Cider time. When the frost is white on the barrel in the backyard, there's real joy in living. Gimme a straw.

After your wife has taken the trouble to purchase an automobile veil to match her complexion you will be a most hard-hearted creature if you refuse to buy her the rest of the outfit.

In Fayette and Greene counties the Prohibition candidate for Congress, W. M. Lakin, is in disgrace because of his alleged writing of worthless checks in payment of honest debts.

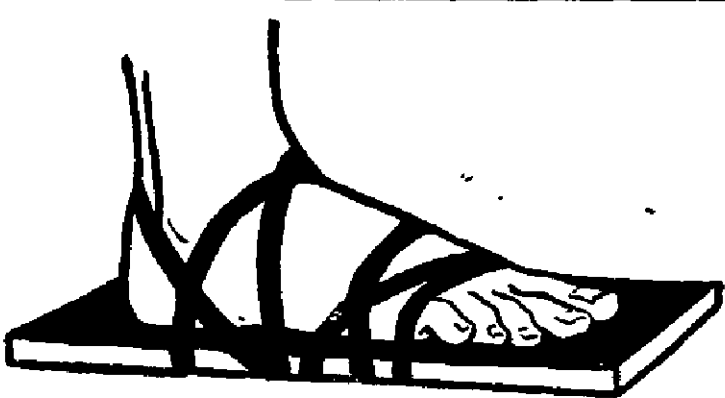

Charleroi must have about every-thing now. The latest addition is an up-to-date vaudeville company, formed exclusively of local talent, and not bad at that, hey?

If aeroplanes and air ships do not require too much attention for a while now we may expect to be able to travel across the continent in a short time by trolley. The trouble in that however would be that a fellow would have to carry an extra suit case in which to take his transfers.

If the ballots this fall are going to be so doggone big, how in the world, we wonder is a fat man going to vote, when he alone occupies thirteen-elevenths of a booth.

Mr. Rockefeller declares that he can do more work than he could fifteen years ago, but let us hope that he refrains from doing the same kind of work.

The German lieutenant who proposed to a Chicago girl by cable was only carrying out the army theory that campaigns should be conducted at a distance from the firing line.

## Now Walk!

Not pleasant, is it?

The sole of the ordinary shoe is as stiff, as unyielding as a board.

Every step you take, your foot bends; the sole of your shoe bends *scarcely at all*. The ball of your foot, bearing the entire weight of your body, rubs against the sole.

This rub, rub, rub is what makes your feet "draw," burn, ache!

## The Red Cross Shoe bends with the foot

follows its every movement, just as a glove moves with the hand. It entirely prevents the burning and drawing caused by stiff soles. It gives a sense of ease, of freedom you can't conceive of until you have worn it.

Try the Red Cross now, today.

Get style and comfort; get both.

We have it in all styles—High Shoes, \$4 and \$5; Oxfords, \$3.50 and \$4.

### Making More Than a Living

Nearly every man who works  
steadily makes more than a liv-  
ing. During these slow times  
the men who have saved some-  
thing appreciate what it is to  
have something laid away for a  
rainy day. A few cents a day  
soon counts up, and when sav-  
ings are placed in a bank at a  
tidy interest the sum soon grows  
to proportions that make it a  
safeguard against want when  
work is not plentiful. Figure  
up how much more than a living  
you are making now, and place  
the difference in this bank.

**IT IS REALLY EXCEPTIONAL!**

The sale that is now going on:

Owing to the fact that I am remodeling my store, and a heavy fall stock just arriving, I am compelled to make room, more room and lots of it.

To do so I am going to sacrifice my entire stock of Furniture, Rugs, Carpets, Linoleums, Oilcloths and Stoves at prices that will prove a revelation to you.

This is a genuine boni-fide mark-down sale that will sure be a money saver to those who are wise enough to take advantage of it.

My stock is complete in every detail and all new goods.

You are cordially invited to call and inspect the stock, and we ask you to compare our prices with those asked elsewhere, then I know you will come here and buy, because you save money.

On account of lack of space it is impossible for me to go into detail on prices, but I can positively guarantee on a saving of 25 per cent. to 50 per cent. on all goods bought here during the sale.

**POLICE RAID A DISORDERLY PLACE**

Last night a couple, Mr. and Mrs. Link Smith, colored, were before the burgess on a charge of running a disorderly house on Washington avenue. They were both fined \$10 and costs and ordered to get out of town, which they promised to do within a week. Today at noon, a fight was reported in progress there and the police were called. They found a woman laying in the alley, by the side of the house too drunk to scarcely move. She was picked up and brought to the station house, and Mrs. Smith was told to appear tonight again. Link Smith was arrested later and left a forfeit for his appearance tonight.

**The Season's Latest.**

Manger Challis of the Monessen Opera House has been very successful in his bookings this season and has secured many of the seasons latest attractions among which is the great Hungarian-American play "The Devil" to play there for one performance by an unsurpassed New York cast.

This company is on its way to fill engagements along the Pacific Coast, among the larger cities, and it is playing but a few one night stand engagements on the way.

This "Devil" company is headed by Mr. George Lawrence in his very correct impersonation of "The Devil" and is assisted by Miss Florence Langdon in her wonderful portrayal of "Olah" the wife and is under the personal direction of Mr. Langdon Tempest.

**Work Began.**

West Newton, Pa., Oct. 9.—Work began yesterday on the setting of grade stakes for the portion of the Jeannette, West Newton and Monongahela street Railway company, between West Newton and Herminie.

To avoid the construction difficulties at the precipitous Alum Rocks on the Big Sewickley creek, the route has been diverted southward about half a mile. Work is progressing on the construction of a line between Herminie and Irwin.

**All Bills Paid.**

A meeting of the Old Home Week Association of Monongahela was held at that place last night, and a report was made that all bills had been paid. A check of \$300 received yesterday from J. B. Finley at Pittsburgh enabled them to meet all the bills.

**THE SLEEPING SICKNESS WHICH MEANS DEATH**

How many readers have heard of this terrible disease? It prevails in that far-away country—Africa—especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to be awake at night, tossing about, nervous, with cold feet, hot head and mercury knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried everything without relief. Vinol was recommended, and to my surprise, it helped me at once; gave me a splendid appetite, and now I sleep soundly."

What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep.

**Briefs of the County**

Washington, Pa., Oct. 8.—West Middleton is wild over an oil strike on the Knox farm, occupied by T. M. Crawford, and was put down by the Carnichael company, and just as the pay streak was reached, the engine broke down. The showing was excellent.

Canonsburg, Oct. 9.—Mrs. L. M. Morgan, of Mt. Pleasant township, and her sister, Miss Shelley, of Ohio, who is a guest at the Morgan home figured in an exciting runaway Tuesday evening. The ladies had been spending the day with Mrs. J. T. Scott, a neighbor, and were returning home, when their horse took fright at some cattle in the road, and in turning square about upset the buggy and threw Mrs. Morgan and her sister out.

Canonsburg was on the line of the Baltimore and Ohio railroad Thursday, or, to be more specific, some of the through Baltimore and Ohio trains came to Canonsburg, being run over the Chartiers railway between Washington and Pittsburgh because of the burning of the B. and O. bridge at Snowden, between Finleyville and Glenwood. The bridge was a high one, and it was discovered on fire about 5 o'clock Thursday morning. Before the flames were extinguished the structure, which was of wood, was badly damaged.

West Middletown, Oct. 9.—With a showing of about five barrels of oil per day in the well drilled on the Knox farm by the Keesey Oil company of Wellsburg the excitement here is at fever heat and every move is being watched. Although it is known that the Keesey company has all the territory in this section under lease representatives of the Standard Oil company, the South West Penn company and many other large concerns were on the grounds today awaiting the outcome of the drill when it pierces deeper into the sand. The territory on the outskirts of the lease held by the Keesey company is rapidly being picked up with the hopes that the pool may extend several miles back.

## ACTION IN EQUITY COURT TO RECOVER HOUSE AND LOT

A suit involving some unusual features has been filed in equity court in which Frank Hawthorne, of Millsboro; Mrs. Della Campbell, of California; Mrs. Ella Syphers, of Rices Landing; Mrs. Lucy Scott, of Folsom, W. Va.; and Mrs. Rena Anderson, of Charleroi, are plaintiffs, and G. C. Queen, A. J. Leonard and Jacob Harshman, trustees of Inevincible Lodge No. 741, I. O. O. F., of Millsboro, are defendants. Charles E. Phillips represents the plaintiffs.

The action is brought to recover possession of a house and lot in Millsboro, on Ferry street. The plaintiffs are all children of the late Samuel W. Hawthorne. During his life, Samuel W. Hawthorne was a member of Inevincible Lodge No. 741, I. O. O. F., and in their statement the plaintiffs say he was in good standing at the time of his death. Following his death the Millsboro lodge I. O. O. F. upon petitions directed to various lodges of the I. O. O. F. throughout the state, in aid of the widow and her children, received \$800, more or less, to be applied for the benefit of the widow and the children, and regularly for a number of years, it is set forth, a stated sum was paid the widow for the benefit of herself and children.

Samuel W. Hawthorne died in 1890. The bill sets forth that March 5, 1890, the sum of \$300 so raised by Inevincible Lodge, was applied by the lodge in

the purchase of a house and lot in Millsboro, now in question, for the use of the widow and children. For the consideration named it was conveyed to the trustees of the lodge in trust for the widow and children. The deed provided that in case the widow remarried or died before the youngest child was 21 years of age, then the property was to be held in trust for the minor heirs of Samuel W. Hawthorne, until the youngest child attained the age of 21 years.

In addition to this statement sets forth, there was a tennendum as follows: "To have and hold the said premise, with all and singular the appurtenances, etc., their successors and assigns forever, in trust for the use above set forth."

Mrs. Hawthorne did not remarry and died in February of 1900, the youngest child, Rena, becoming 21 years of age June 2, 1907. After the death of the mother, two children remained in possession of the property until in April 14, 1903, when they allege they were unlawfully ejected by the Inevincible lodge. Since then they say they have not been permitted to use the property, nor have they received assistance from the funds raised for their benefit. They now bring suit to recover the property, and ask an accounting of the rents, issued and profit from February 19, 1900.

## ANNIVERSARY CELEBRATION

Charleroi Hive of Maccabees Have Interesting Session.

### NICE PROGRAM RENDERED

Charleroi Hive No. 185 celebrated last night the sixteenth anniversary of the foundation of the order of the Maccabees of the World. Over one hundred and fifty people attended the celebration, which was held in the P. H. C. hall.

A very fitting and appropriate program was prepared for the occasion, and was arranged as follows:

Drill—By the Guards.  
Piano Duet—Miss Hazel Blanchard and Julia V. Sullivan.

Address of Welcome—Miss Anna M. Sullivan.

Vocal Solo—Elizabeth Garrigan, a little tot of 4 years.

Recitation—Miss Helen Springer.

Vocal Solo—Miss Hilda Callahan.

Recitation—Miss Marie Whitehead.

Piano Duet—Helen and Grace Fleming.

Piano and Violin Duet—Mabel McFeeley and Helen Myford.

Whistling Solo—Master Donald Enceix.

Piano Solo—Miss Neva Brown.

Short history of the Ladies of the Maccabees of the World—Mrs. Mary E. Springer.

A very delightful lunch was served by the ladies following the rendition of the program. The hall was tastefully decorated in the colors of the order, red, white and blue.

The L. O. T. M. of the World has a membership of 160,000 in the United States and Canada. Of the total membership by far the greatest number carry benefits, their combined certificates exceeding ninety-eight millions of dollars. It has paid out during the period of its existence in benefits of deceased and distressed members more than six millions, and every dollar has gone into some home in time of distress and want.

## MISSIONARY OF HOME IN CHARLEROI

Miss Hattie Irego, the district missionary of the Pennsylvania Children's home society, has been in Charleroi for some time. She says that owing to the financial depression at this time, that Charleroi has not given so liberally to the cause as last year. The home is located in Pittsburgh and in non-sectarian. There are Charleroi children in the place. Miss Irego says the work of helping the homeless youngsters has interested a large number in the state. The offices of the association are in 719 Ferguson Block, Fourth avenue, Pittsburgh.

Miss Irego left this morning for California to take up work there for a time.

## MEN MONOPOLIZE THE WAITING ROOM

The manner in which the waiting rooms at the Monongahela railroad station are used by the male patrons of the company, came in for some mild criticism yesterday, by a gentleman who was a passenger on one of the early morning trains recently. He stated the ladies waiting room was almost filled with men, while their own was practically empty. The few women passengers present had to content themselves with standing around and waiting until their train left.

## FANS LEARN RESULTS THROUGH BELL COMPANY

Efficient service was furnished the local fans interested in the New York-Carago score yesterday by manager F. B. Burwell, of the Bell Telephone company. The score by innings was furnished to stores and places of business where bulletins were put out; and Mr. Burwell kept a number of private citizens notified of the results of each inning.

## HOUSES NOW IN GREAT DEMAND

Starting of Plate Glass Works To Bring Many Families Here.

### WILL NOT BE ENOUGH

Empty houses are in great demand in Charleroi at this time, a number of families being brought here by the starting of the Plate Glass Works company. The company has sought all the real estate men of this place and instructed them to hold all the good houses they possibly could in readiness for the workers and their families which are coming here.

It is understood that there will be at least two hundred persons come here when the factory starts in, about two weeks. This means a very big demand for houses and it is doubtful if enough can be found.

## BEST SHOW THE STAR EVER HAD

The show at the Star theatre the latter part of this week is honestly the best ten cent show ever seen in Charleroi. The acts, four of them, are all headliners, and if a person who has witnessed the productions should be asked which of the four was the best, he would indeed be in a dilemma. The first number is the Darktown Minstrel Boys, who were retained for the full week. With a new program they took even better than at the first of the week. Rob Roy, the funny old man with the hats gave a high class, entertaining act. The new manager, Mr. H. V. Schaffner, who is also the new singer made a hit. He has a fine baritone voice and knows how to use it. "St. Arno" in his hand balancing stunt departed from the usual mode of equilibrist and gave a good act. Leslie and Williams, a comedy team produced a continual laugh. The pictures were good.

## FROM COLUMBUS, OHIO, TO CHARLEROI

Washington, Oct. 9.—Claiming to be from Columbus, O., a woman, giving her name as Mrs. Mary Shaw, with five children, four boys and a girl, reached Washington yesterday, having driven across the country. The woman and children are in straitened circumstances, and have been soliciting aid about Washington. The children are young. One lad, who was asking for money, said they were on their way to Charleroi, where his grandmother lived. He said they had a horse and covered wagon, all they had left, their home having been burned down. He said they had been on the road for three months. They slept in the wagon and depended for food on the kindness of people along the road.

## BIG CONTRACT FOR LAKE SHIPMENT CLOSED

Monongahela, Oct. 9.—M. A. Hanna and Co., of Cleveland, Ohio, the big firm of lake shippers, has contracted with the Pittsburgh-Buffalo company for the entire output of its Rachel, Agnes and Blanche mines in this county for a period of five years. This is one of the largest contracts ever closed with any company for lake shipment.

## CRAFTY MOVE BY PENNSY TO SHUT OUT COMPETITION

The Pennsylvania company, which for some months has been doing preliminary work on the Chartiers Southern road which it will build from Van Eman station, on the Chartiers fallway, to Zollarsville, is still engaged in securing rights of way along the proposed route. Many of the rights have already been secured, and it is thought the entire route will be secured during the coming winter. In some places quite a large sum has been paid owners through whose property the road will pass, the company apparently preferring to deal direct with the landowners rather than to have the damages determined by court through the intermediary of viewers.

The amount of money that has been paid out by the company is sufficient to prove that the project is no paper affair, and that it is to be built at an early day. It is generally believed along the route of the proposed railroad that the contract will be let during the coming winter, and that actual construction work will be started early next spring.

The Chartiers Southern will follow the south branch of Chartiers creek from Van Eman, passing through Linden and almost paralleling the Baltimore and Ohio tracks from Gamble station to Eighty-Four, the B. and O. between these stations running

almost due north and south. After leaving the B. and O. the road will follow Brush run, a tributary of Ten Mile creek, for some distance, and will then run southwest to the Little Daniels creek valley to Ten Mile creek, and thence to Zollarsville. The grade is on an easy one the entire distance.

A continuation of the M. and W. branch road extends from Monongahela to Zollarsville but the proposed road is a crafty move on the part of the Pennsylvania by which they will shut out all competition.

The right of way has been secured over the entire route with the exception of the stretch between Eighty-Four and the pike. The right of way men are now trying to secure this section.

It was necessary for the railroad company to purchase outright the right of way over the Blaine Dague, formerly the Ross farm, near Eggnogg hill. It is understood the purchase price was between \$4,000 and \$5,000.

Pilots are Advised.

The contractors for the new bridge across the Monongahela river at Webster have sent out notices advising pilots to run to the Donora side of the river until further notice.

## WASHINGTON AVENUE PRESBYTERIAN EVANGELISTIC SERVICE NEXT WEEK

Beginning Sunday morning at the 11 o'clock service, evangelistic services will be held two weeks or probably more at the Washington avenue Presbyterian church. The services will be in charge of men of national reputation, Rev. E. E. Hendrick and Mr. A. L. Carter, both of Nashville, Tenn. Rev. Hendrick will preach and Mr. Carter will sing. Services will be held each evening, beginning at 7:30 o'clock. There will be thirty minutes of song and praise service after which Rev. Hendrick will preach.

Both Rev. Hendrick and Mr. Carter as has been stated in the preceding paragraph are men known all over the

United States, the former by his sermons and the latter by his songs. Both possess the magnetic charm only by which one can obtain the best results in evangelistic work. It is expected that the two leaders will accomplish great good in Charleroi.

## FORECAST FOR RAIN WELCOME NEWS TO VALLEY RIVERMEN

The forecast for rain to arrive soon given out last evening by weather bureau of this district was welcome intelligence to owners of river craft operating in the Monongahela river pools. While the promised rain does not lead to any expectations of a coal shipping stage, it is hoped by rivermen that it will result in filling the pools and aid in carrying the acid which is a constant menace to the boilers of the poolboats and has sent about all the boats in operation to the shops for repairs during the low water period. Rivermen now claim that the acid has a tendency to loosen and rot the osium in the seams of

the hulls and is responsible for a greater percentage of leakage than has been known for years.

With 20,000,000 bushels of coal in the harbor awaiting a rise to start south, a shipment made from Pittsburgh on December 6, 1887, which was considered large at that time and was handled by 11 steamers, two of which were sidewheel boats, at this day, 52 years later, would make about ordinary tows for two of the big boats which will go out on the next rise. 1886 was the year of the coal famine in Cincinnati, and, old rivermen say, coal sold as high as 50 cents a bushel before the arrival of the fleet.

## NEWCOMBER IS TAKING SOUNDINGS OF MONONGAHELA

Maj. Henry C. Newcomber, United States engineer in charge of river improvements, is availing himself of the low water in the upper pools in the Monongahela river to secure valuable data regarding channel stages and the results of shifting currents. A detail of assistant engineers was taken up to the fifth pool, near Rices Landing, on the government launch Luzon, and spent the day taking soundings in that pool and verifying the gauges. If the drouth continues it is expected that the soundings will be taken in pools farther up stream.

## Crossing Tracks; Struck by Train

Harlin Station, Oct. 9.—While crossing the Pankard tracks near Colliers yesterday Mrs. Alfred Stansbury and Mrs. Davis were struck by a train. Mrs. Stansbury was caught on the cow catcher of the engine and carried several hundred feet and tossed to one side badly injured. Mrs. Davis escaped uninjured. The buggy in which the two women were riding was completely demolished, while the horse escaped without a scratch. The animal after being freed from the broken rig calmly walked to a hitching post where it had often been tied and stopped as was its custom.

The chart for the securing of seats for the Fall and Winter lecture course will be opened Saturday, October 17th, at Piper's Pharmacy, corner of Fallowfield avenue and Fifth street, at 9 o'clock in the morning.

The course this year promises to be exceptionally good. It will be opened at the School Hall, Friday evening, October 23rd by Alton Packard, the well known cartoonist.

### Millinery.

A new and up to date millinery and dry goods store has been opened, Mr. F. L. May, of this city in the old stand formerly occupied by M. Wells.

The stock is entirely new and up to date and customers can rest assured of getting new goods, new styles at prices that will prove very interesting.

Mr. May cordially invites all the ladies of this and surrounding towns to call and inspect his stocks. 451b.

## The Facts of the Case.

Comment has been caused because  
the Mail has been finding fault with  
the council for not looking up the  
fountain donated to the city by the  
late James S. McKean, and having it  
placed in position. It seems there  
has been a misunderstanding in some  
way and a thorough investigation re-  
veals the fact that although the Penn-  
sylvania Railroad company on whose  
property it was to have been placed,  
prepared plans and specifications for  
new freight and passenger stations  
when they proposed to build if council  
would grant them the privilege to ex-  
tend their entrance to the freight  
building over the borough's property  
twelve feet in width for about the  
length of a square, offering in return  
open up their water line near Fifth  
street for the fountain to be placed.  
The proposition was never accepted.  
Although it was understood that  
agreements were reached between the  
railroad company and council, such  
was not the case. It did look favor-  
able for a time, however, but certain  
clauses in the agreements which the  
company's officials had drawn up were  
objectionable to the council and the  
former refusing to make changes, a  
stop was put to further business be-  
tween the two bodies. These clauses  
over which the contention arose were  
concerning the opening of the water  
main, the Pennsylvania Railroad com-  
pany refusing to grant the borough  
the privilege of using the water in-  
definitely, but made it optional with  
themselves as to when it should be  
turned off after notice of ninety days,  
and the number of feet back from  
the street which switches should be  
placed. Council demanded that  
plenty of room be given for teams to  
back into a car, without interfering  
in the least with traffic on McKean  
avenue, and the company refused to  
accord to the exacting demands. Here  
was where the matter stopped and not  
a word has been said since by either the  
council or company. The financial  
department set in and the railroad dis-  
continued making improvements any-  
where, the plans for the new station  
it is understood, being kept  
with a view of building as  
soon as business brightens up, so the  
matter will likely come up again.  
But the question arises, what

about the fountain? Where is it? stantly disqualified in case either is  
The facts of the case are that there caught passing "bum" checks for  
is very little fountain at the present war supplies.  
time, and that little part is rusted  
and scarcely fit for use. Charleroi's  
fountain, of which she was justly  
proud has been allowed to lay in an  
outhouse, be taken apart and pieces  
stolen, simply because the various  
men who were at the head of city  
government here during the past sev-  
eral years, failed to take action and  
have it placed where it would do good,  
or at least have it stored where it  
would not be stolen or rusted away.

## Question Constitutionality.

Candidates in various parts of  
Washington state, unsuccessful at the  
election Sept. 8 from nomination on  
the state and district ticket to be  
voted for at the national election in  
November, have completed preliminary  
plans for a concerted attack on the  
constitutionality of the direct pri-  
mary election adopted by legislature  
in 1907. Judge W. W. Zent of Kitz-  
ville, has already filed his petition,  
assailing the non-partisan Judiciary  
feature, alleging also that the legisla-  
ture had no right to require candidates  
to pay a filing fee or force them to  
declare their party affiliation. The  
state canvassing board has been  
ordered to show cause why the writ  
should not issue.

Other petitions to be filed will  
require the supreme court to pass on  
such questions as first and second  
choice for state and congressional  
offices where four or more candidates  
appear on the ticket, also on the man-  
ner of the election of a judiciary on  
the non-partisan ticket.  
Attorneys who have investigated  
the second choice provision declare  
that this section of the act undoubt-  
edly unconstitutional. The provision  
is a new one and as there is no legal  
literature or precedent upon the sub-  
ject, so the fight through the courts  
will be in the nature of pioneer lit-  
igation.

## Electric Sparks.

The Turks and Bulgarians are de-  
termined to fight it out. Good! We  
will stand for strangle holds, and  
things like that, but it must be under-  
stood that contestants shall be in a

## Now Walk!

Not pleasant, is it?  
The sole of the ordinary shoe is as stiff, as unyielding  
as a board.  
Every step you take, your foot bends; the sole of your

## Making More Than a Living

Nearly every man who works  
steadily makes more than a liv-  
ing. During these slow times  
the men who have saved some-  
thing appreciate what it is to  
have something laid away for a  
rainy day. A few cents a day  
soon counts up, and when sav-  
ings are placed in a bank at a  
tidy interest the sum soon grows  
to proportions that make it a  
safeguard against want when  
work is not plentiful. Figure  
up how much more than a living  
you are making now, and place  
the difference in this bank.  
Four per cent. interest paid in

**POLICE RAID A DISORDERLY PLACE**

Last night a couple, Mr. and Mrs. Link Smith, colored, were before the burgess on a charge of running a disorderly house on Washington avenue. They were both fined \$10 and costs and ordered to get out of town, which they promised to do within a week. Today at noon, a fight was reported in progress there and the police were called. They found a woman laying in the alley, by the side of the house too drunk to scarcely move. She was picked up and brought to the station house, and Mrs. Smith was told to appear tonight again. Link Smith was arrested later and left a forfeit for his appearance tonight.

**The Seasons Latest.**

Manger Challis of the Monessen Opera House has been very successful in his bookings this season and has secured many of the seasons latest attractions among which is the great Hungarian-American play "The Devil" to play there for one performance by an unsurpassed New York cast.

This company is on its way to fill engagements along the Pacific Coast, among the larger cities, and it is playing but a few one night stand engagements on the way.

This "Devil" company is headed by Mr. George Lawrence in his very correct impersonation of "The Devil" and is assisted by Miss Florence Langdon in her wonderful portrayal of "Oliah" the wife and is under the personal direction of Mr. Langdon. Tempest.

**Work Began.**

West Newton, Pa., Oct. 9.—Work began yesterday on the setting of grade stakes for the portion of the Jeannette, West Newton and Monongahela street Railway company, between West Newton and Herminie.

To avoid the construction difficulties at the precipitous Alam Rocks on the Big Sewickley creek, the route has been diverted southward about half a mile. Work is progressing on the construction of a line between Herminie and Irwin.

**All Bills Paid.**

A meeting of the Old Home Week Association of Monongahela was held at that place last night, and a report was made that all bills had been paid. A check of \$9.00 received yesterday from J. B. Finley at Pittsburgh enabled them to meet all the bills.

**THE SLEEPING SICKNESS WHICH MEANS DEATH**

How many readers have heard of this terrible disease? It prevails in that far-away country—Africa—especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to lie awake at night, tossing about, nervous, with cold feet, hot head and mercy knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried everything without relief. Vinol was recommended, and to my surprise, it helped me at once: gave me a splendid appetite, and now I sleep soundly."

What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep.

**Briefs of the County**

Washington, Pa., Oct. 8.—West Middletown is wild over an oil strike on the Knox farm, occupied by T. M. Crawford, and was put down by the Carmichael company, and just as the pay streak was reached, the engine broke down. The showing was excellent.

Canonsburg, Oct. 9.—Mrs. L. M. Morgan, of Mt. Pleasant township, and her sister, Miss Shelley, of Ohio, who is a guest at the Morgan home figured in an exciting runaway Tuesday evening. The ladies had been spending the day with Mrs. J. T. Scott, a neighbor, and were returning home, when their horse took fright at some cattle in the road, and in turning square about upset the buggy and threw Mrs. Morgan and her sister out.

Canonsburg was on the line of the Baltimore and Ohio railroad Thursday, or, to be more specific, some of the through Baltimore and Ohio trains came to Canonsburg, being run over the Canonsburg branch between Washington and Pittsburgh because of the burning of the B. and O. bridge at Snowden, between Finleyville and Glenwood. The bridge was a high one, and it was discovered on fire about 5 o'clock Thursday morning. Before the flames were extinguished the structure, which was of wood, was badly damaged.

West Middletown Oct. 9.—With a showing of about five barrels of oil per day in the well drilled on the Knox farm by the Keesey Oil company of Wellsburg the excitement here is at fever heat and every move is being watched. Although it is known that the Keesey company has all the territory in this section under lease representatives of the Standard Oil company, the South West Penn company and many other large concerns were on the grounds today awaiting the outcome of the drill when it pierces deeper into the sand. The territory on the outskirts of the lease held by the Keesey company is rapidly being picked up with the hopes that the pool may extend several miles back.

The Seubenville Herald-Star contains the following in reference to a big coal sale in which a large acreage in Hanover township along Kings creek, Washington county, is included:

The sale that is now going on—

Owing to the fact that I am remodeling my store, and a heavy fall stock just arriving, I am compelled to make room, more room and lots of it.

To do so I am going to sacrifice my entire stock of Furniture, Rugs, Carpets, Linoleums, Oilcloths and Stoves at prices that will prove a revelation to you.

This is a genuine boni-fide mark-down sale that will sure be a money saver to those who are wise enough to take advantage of it.

My stock is complete in every detail and all new goods.

You are cordially invited to call and inspect the stock, and we ask you to compare our prices with those asked elsewhere, then I know you will come here and buy, because you save money.

On account of lack of space it is impossible for me to go into detail on prices, but I can positively guarantee on a saving of 25 per cent. to 50 per cent. on all goods bought here during the sale.
